Killer technique #1 revealed

Instant Surge In Google Niche Traffic & High Rank For Your Keywords On A New Or Dead Blog In Less Than 48 Hours

Guess what, without all the hype and fluff you see with all sorts of PDF's you download where you wish the author would just get to the point and give you the goods... here for the first time in a long time your getting just what you asked for 😊

I'm going to show you step by step how to do what I've just stated in the headline, so lets get into it.

1. You need to find high PR and high traffic niche blogs that allow, "do follow" post

2. Contact owners before posting and provide unique content they will love.

(Self-explanatory. if you need more direction I can provide that with some consultation to make sure you get your point across and start the traffic machine)

3. 5 post per day, per niche blog using your "money keywords" as anchor text.

4. Deep linking each post within your blog and not to same page.

(This means you don't send all your rich anchor text pointing to your main blog page or main website with blog, you make all your anchor text links count by sending your links to different categories in your blog different pages in your website that you want to get ranked and get traffic to etc etc etc)

Again if you want more instruction on this I can offer consultation so you "GET IT"

Because once you "GET IT", ... you "GOT IT" and no one can ever take away that skill set from you :-)

5. Submit Optimized Content Rich Sitemap with RSS feed to search engines

<http://www.xml-sitemaps.com/>

(This is a kick butt way to get your content on Google's best side and I've got a little secret for you after you do this which will bring you a nice lump sum of bank every month.)

I'll explain what that is if you'd like consultation.

I'm actually going to show you how to monetize your sitemap and Google will fall head over heels in love with you.

6. Watch Traffic and leads flow into your blog or website. Wash, rinse, and repeat, per new niche.

Total time, 1 day or less if you want to outsource longer if you do it yourself.

I'm sure your wondering what tools I use to get this done?

Well I just gave them to you silly.

Now you can legally "RIP ME OFF" after you get results and use this method yourself to build a thriving online business by helping local offline businesses get setup.

Most of my students charge local business big dollars to set this up, but my students aren't stupid they totally outsource this.

Do you think what I've just shown you is worth something?

Is it worth you learning more so you can ramp up your blogs and get premium niche targeted traffic back to your blog or website so you build a targeted list of prospects that you turn into your customers?

Or...

You having the ability to walk into any offline business, show them how you can help them get leads for free online and have their dead phone ring?

Or...

Go do it with struggling online marketers that don't have the slightest clue how to do this as well.
